Announcement of Resumption of Sendai Branch Operations

Elematec Corporation wishes to express its deepest sympathy to all affected by the Tohoku Pacific Offshore earthquake on March 11, 2011.

In the “Announcement of Effect of Tohoku Pacific Offshore Earthquake” dated March 14, 2011, Elematec notified the Sendai Branch is likely to be the company’s only office in Japan which will be forced to suspend its operations for the time being. However, Sendai Branch resumed operations today because all infrastructures including electricity, water, communications equipment and system-related have been restored and also because there was no human damage.
