2. Reason

The Company's fundamental policy regarding the annual dividend is to pay a consolidated net income of 30%. Income tax adjustments (1,084 million yen) were made for the term under review due to deferred tax liabilities arising from a decision to change the dividend policy of overseas subsidiaries distributing dividends to the Company. While these adjustments do not entail any cash payment at present, the year-end dividend per share, whose record date is March 31, 2019, is 36 yen after eliminating the impacts of the adjustments. Accordingly, annual dividend per share will be 66 yen which includes a 2nd Quarter dividend of 30 yen per share and a dividend payout ratio (consolidated) will be 40.2%.
